GENERAL NOTES

The area given in the Tables is 1608 square miles which is obtained from the Cadastral Survey of the State.

In Rajputana Report in Table I they have put 1670 square miles as the area of the State. This is probably what is given in the Trigonometrical Survey of India.

Sambhar being under joint jurisdiction of Jaipur and Jodhpur figures for Sambhar in the Jaipur Tables are for the Jaipur portion of Sambhar only. It should be noted here that there are a number of villages which belong to Jaipur alone.

The number of administrative units is the same as in the 1st Census.

There has been however a redistribution of villages in the administrative units.

TABLE-IV

Towns Classified by Population with Variation since 1881

Explanatory Note

In this table the towns are not arranged by Name but by population. They are grouped into four heads, namely the population of —

- (1) 0 000 and over
- (2) 10 000 to 20 000
- (3) 5 000 to 10 000 and
- (4) Below 5 000

The number of towns in this Table is 33, the increase following to the inclusion of Ambur, this is the only Ambur being a place of historical importance and capital of the State is now the head quarter of the Namak Amber, hence the Namak district Tahsil is located

TABLE VIII

Education by Religion and Age

Explanatory Note

The Table deals with the literacy of the population classified by religion and for age groups as shown in the Table 01010110001.

Literacy rates shown in Columns 5 include literacy figures which appear in Column 1113. The total in Column 4 therefore represent the aggregate of Columns 10 only.

Christians have been subdivided into (a) Indian and (b) Others in parts A and C of the Table to illustrate the extent of literacy among Indian Christians.

Figures shown in the ungrouped in Table VIII have been included in the Table under 01010110001.

The Table has 4 parts:

Part A shows the extent of literacy in the State, by religion.

Part B gives details for each district.

Part C gives details for the City of Jaipur.

Part D illustrates the extent of literacy in the Indian Hill for the State by districts.

TABLE X

Language

Explanatory Notes

This Table shows the languages ordinarily spoken by the people in their own homes. Infants and dumb persons have been classified as speaking their mother's language.

The languages entered in the Table are those actually found in the Schedule except that entries have been previously with purely local terms signifying nothing at all have been shown under the language for which they were intended.

On the last page of the Table will be found an Appendix showing the most important of schedules as found in the Schedule and the proper languages in which they have been included.

The Table gives figures of languages by Nationalities and is divided into the groups—

A—The languages of India commonly with the two most frequently spoken in Rajputana, Rājsthān and Western Hindustan, being in alphabetical order.

B—The languages of the countries of India.

C—The languages of the

Languages of the Indian Empire are also amalgamated and other languages of the Empire are as follows—

TABLE XV

Territorial Distribution of the Christian Population by Sect and Race

Explanatory Notes

The Table shows the distribution of the Christian population of the

Christian population by race and by sect. (1) European and
Allied Races (including Americans) (2) Asiatic and (3) Indian

The term Anglo-Indians includes persons belonging to the British
race and to the Indian race (1) of European descent and (2) of Indian
descent (3) of mixed blood and of Indian descent. The term of
the Commission is the same as the term used in the Constitution of
the League of Nations. The term of the League of Nations is the same as the
term used in the United States of America and in the League of Nations.

For the purpose of this Table, India

is divided into the following groups: (1) British and (2) Indian
and (3) Mixed blood and (4) Indian.

TABLE XVI

European and Allied Races (including Armenians) and
Anglo Indians by Race and Age*Explanatory Note*

This Table corresponds with Table XVIII of 1911 and is divided into two
parts —

Part A — Classified by age and by State, City, Towns and
Tribes for all European and Allied Races including
Armenians

Part B — Contains similar statistics for Anglo Indians. For definition of the
term Anglo Indians, see the Explanatory Note to Table XV

Populations have been subdivided into (1) British subjects and (2) Others

Only three Armenians have been enumerated in the State, two males under
the age group 30-40 and one female under 0 and over

TABLE XVII

Occupation or Means of Livelihood

Explanatory Note

This Table is divided into three parts —

XVII A Part I is the summary for the whole State. Part II shows by City, Township and Territory the occupations or means of livelihood which were returned in the Schedules as the principal means of support.

XVII B showing population following selected occupations by sex and age periods for the city of Jasper.

The method of classification of the Census of 1911 has been adopted with certain modifications suggested by the Census Commissioner. The number of classes and subclasses remains the same but the number of groups within the orders has been amplified by adding them from 169 to 191.

The groups under which no occupations were returned have been omitted.

TABLE XVIII—SUBSISTENCE OCCUPATIONS OF AGRICULTURISTS. PART IV—ACTUAL WORKERS ONLY

[illegible]

TABLE XXI

Occupations by Selected Caste Tribe or Race

Explanatory Note

This Table is divided into two parts —

Part I shows occupation of selected Castes Tribes and Races

Part B is distribution of workers in the following groups of occupation by Castes Tribes and Races —

- () Group No. 99 (Other menial)
- () Group No. 5 (Cotton ginning cleaning and pressing)
- () Group No. 6 (Cotton spinning)
- () Group No. 7 (Cotton spinning and weaving)
- () Group No. 43 (Gilder workers : iron and makers of implements and tools principally exclusively of iron)
- () Group No. 40 (Workers in brass copper and bell metal)
- (vi) Group No. 94 (Photographers and engravers)
- (vi) Group No. 98 (Precious metal workers)

Part I has been prepared for Christians (A Native) and (B Other) and for 26 selected castes.

The castes selected for this Table are those vintages which have been dealt with in Table XIV. They represent fairly very distinct and have definite traditional occupations.

Column 7 is added to deal with tent which in addition to occupations are followed while column 11 and 12 are designed to make it possible to discount the tendency of functionaries of the traditional occupations as the means of livelihood. The figures in the subsequent columns are exclusively of the numbers shown in columns 7 and 8 as follows : the traditional occupations.

The population dealt with in this Table includes only those who have returned the name of the main caste and not of sub-castes or synonyms subsequently lumped together in Table XIII.

TABLE XXII

Industrial Statistics

Explanatory Note

This Table is divided into seven parts according to the Imperial Schemes. But for the purposes of the Jaipur State statistics have been compiled only for Parts II III V VI and VII relating to Jaipur City only.

Information about industries was collected in a Special Industrial Schedule filled by owners managers or agents of factories which employed more than 10 persons on April 1st 1931.

- Part II Shows the number of persons employed in each class of Industries
- Part III Shows the number of Industrial establishments classified according to the class of owners and managers
- Part V Shows the caste or racial birthplace of unskilled labourers classified according to the Industry in which they are working
- Part VI Shows the details of power employed for (1) establishments using steam oil gas water etc
- Part VII Shows the number of looms in use in Textile establishments.
